

QUALITY POLICY

MJ Group Sp. z o.o.

according to ISO 9001:2015

MJ Group Sp. z o.o. deals with:

Implementation of work/services/technology in relation to automation systems, robotics, industrial machinery and equipment, control systems and electrical power installations in the field:

- **design, programming, commissioning, service,**
 - **distribution of components,**
 - **documentation and training.**

We value good customer relations by meeting expectations and reliably carrying out assigned tasks. Our services are based on expertise, experience and continuous improvement and development.

Quality policy plays a fundamental role in the activities and development strategy of our company. For us, the high quality of the services and products provided is, in addition to on-time delivery and attractive prices, the basic element that allows us to maintain the reputation of a solid and reliable partner.

The main objectives of our company's quality policy are:

- high level of services provided according to individual projects and expectations,
- competitive pricing,
- flexibility and adaptation to market and customer requirements,
- meeting the requirements of ISO 9001 and continuously improving the effectiveness of the quality management system,
- training of employees and improvement of their professional skills,
- selection of suppliers that guarantee the highest quality products,
- continuous development and improvement of our activities and skills.

I declare, on behalf of the Management Board, all employees and co-workers to be committed to the work of meeting the requirements of the Customers, maintaining and continuously improving the effectiveness of the implemented management system, and allocating the necessary support for the implementation of the Policy. I will make every effort to ensure that the management system is understood, accepted and implemented by everyone working and cooperating with MJ Group sp. z o.o.

Chairman of the Board
Marek Ilnicki
